Bottom Left: Liz Landgren, *Addie Cecilia and the Dandelion* (Birmingham, AL); *Bottom Right*: Julius DC Bautista, *A More Colorful Tomorrow* (Chicago, IL)

From Data to Discoveries: Creating a Research Program for *All of Us*

One year following the launch of the *All of Us* Research Program, what have we learned about how to build an engaged and diverse participant community and its potential for scientific impact? Join us for a symposium discussing these topics and highlighting precision medicine data. *This event is free and open to the public.*

Featured speakers include NIH Director Francis Collins, M.D., Ph.D., and *All of Us* Research Program Director Eric Dishman.

Sign language interpreters are available upon request. Those who need interpreting service or other accommodations can email prachi.patel@nih.gov at least 5 business days in advance.

All of Us, the *All of Us* logo, and "The Future of Health Begins With You" are service marks of the U.S. Department of Health & Human Services.
